

Consent for Telehealth

Client Name: Preview

Today's Date

Full Name:

I understand that Telehealth is a mode of delivering health care services, including psychotherapy, via communication technologies (e.g. Internet or phone) to facilitate diagnosis, consultation, treatment, education, care management, and self-management of a patient's health care.

By signing this form, I understand and agree to the following:

1. I have a right to confidentiality with regard to my treatment and related communications via Telehealth under the same laws that protect the confidentiality of my treatment information during in-person psychotherapy. The same mandatory and permissive exceptions to confidentiality outlined in the Informed Consent I received from my therapist also apply to my Telehealth services.
2. I understand that there are risks associated with participating in Telehealth including, but not limited to, the possibility, despite reasonable efforts and safeguards on the part of my therapist, that my psychotherapy sessions and transmission of my treatment information could be disrupted or distorted by technical failures and/or interrupted or accessed by unauthorized persons, and that the electronic storage of my treatment information could be accessed by unauthorized persons.
3. I understand that miscommunication between myself and my therapist may occur via Telehealth.
4. I understand that there is a risk of being overheard by persons near me and that I am responsible for using a location that is private and free from distractions or intrusions. I will not attempt to participate in therapy while in a public location (ex. gym, restaurant, coffee shop).
5. I will not participate in telehealth sessions while driving or doing other activities that require full concentration to maintain safety.
6. I understand that at the beginning of each Telehealth session my therapist is required to verify my full name and address of current location. This is for safety purposes in the event that I have an emergency during a session and my therapist needs to call emergency services on my behalf.
7. I am aware that traveling outside of the state may impact my ability to receive services and agree to inform my therapist if I am outside of the state during a session.
8. I understand that in some instances Telehealth may not be as effective or provide the same results as in-person therapy. I understand that if my therapist believes I would be better served by in-person therapy, my therapist will discuss this with me and refer me to in-person services as needed. If such services are not possible because of distance or hardship, I will be referred to other therapists who can provide such services.
9. I understand that while Telehealth has been found to be effective in treating a wide range of mental and emotional issues, there is no guarantee that Telehealth is effective for all individuals. Therefore, I understand that while I may benefit from Telehealth, results cannot be guaranteed or assured.
10. I understand that some Telehealth platforms allow for video or audio recordings and that neither I nor my therapist may record the sessions without the other party's written permission.
11. I have discussed the fees charged for Telehealth with my therapist and agree to them, and I have been provided with this information in the Informed Consent and Good Faith Estimate.
12. I understand that my therapist will make reasonable efforts to ascertain and provide me with emergency resources in my geographic area. I further understand that my therapist may not be able to assist me in an emergency situation. If I require emergency care, I understand that I may call 911 or proceed to the nearest hospital emergency room for immediate assistance.
13. Lastly, to maintain confidentiality, I will not share my telehealth appointment link with anyone unauthorized to attend the appointment.

I have read and understand the information provided above, have discussed it with my therapist, and understand that I have the right to

have all my questions regarding this information answered to my satisfaction.

By electronically signing below, I certify that I have read and fully understand the contents (including the risks and benefits of telehealth therapy sessions) of this consent form.
